

The Doxey Digest

10th May 2024

Year 2 have been busy learning all about plants during their science lessons. They now know what a plant needs to stay healthy and what a seed needs to germinate. The biologists have all planted a seed and are now waiting for it to sprout.

Reception have been super mathematicians with revisiting the staircase pattern and ordering numbers to 10. They were able to retrieve this learning easily and build on it.

Last Friday Year 3 visited Victoria Park to complete some hands on learning about plants and pollination. They had a fantastic time creating some

This week Y1 have been exploring the wonderful world of wildflowers. What a glorious sunny day it was to make their observations. They found daisies, buttercups, clover, grass, speedwell and cow parsley. They made recordings to document their observations and found we have an abundance of daisies.

incredible art work inspired by bees as well as finding out all about how they are super pollinators and vital for our environment. They also had the chance to see the different plants and animals in the greenhouse, discovering facts along the way.

Everyone potted their very own plant to take home and look after. Year 3 really enjoyed doing a spot of gardening. Back in school, they have started investigating the parts of a plant and their functions in their new Science unit.

Reading Café

After half term we will be starting reading cafes where families are invited into school to read with their children. Watch this space!
