

The Doxey Digest

19th April 2024

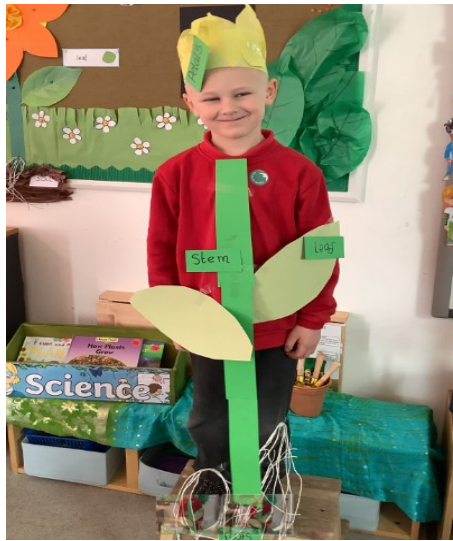

Year 3 have had a fantastic time in forest school this week. They have been making clay models and have produced some beautiful, imaginative creations inspired by nature. The children have also been busy preparing the ground for some new grass seed to be planted. We can't wait to watch it grow and flourish!

Interactive Whiteboards

This week most classrooms have had new interactive whiteboards installed. The teachers are looking forward to using them and exploring how they can enhance our teaching and learning.

Our Year 1 scientists explored parts of plants by turning into one! We discovered instead of arms, legs and feet plants have roots, stems, petals and leaves of all shapes and sizes. We can't wait to find out what plants grow on our school grounds.

In Science this week, Year 5 have been working with different materials to see if they were soluble or insoluble. They used scientific vocabulary and used their working scientifically skills to observe the changes as the materials were mixed with water.

Message from the Head Thank you to those families who attended our meeting last night with Sam Compton, the CEO of the Creative Learning Partnership Trust. If you have any further questions, please come and have a chat with me on the playground.

Community Room

Baby Sensory and Play, Stay and Learn are now running in the Community Room. Let the office know if you would like more details about these.

Reception Class 2024

Families found out this week where they had been allocated Reception places. We will be in touch soon with transition arrangements.
